

# New Views of a Classic (but not Classical) System the Josephson Junction Array

Prof. **Charles Marcus**

University of Washington

**November 21, 2023** (Tue) **10:00–11:00** (JST)

This colloquium will be held in **ONLINE**.

**Online Venue:** Zoom. To receive the link, register in advance at  
[https://krs2.riken.jp/m/rqc\\_registration\\_form](https://krs2.riken.jp/m/rqc_registration_form)

The advent of superconductor-semiconductor hybrid materials has triggered a re-examination of old problems in superconductivity. In this colloquium, I will take a fresh look at the Josephson junction array, emphasizing modern connections to frustration, flat bands, and superconducting qubits.
